\$1000 Gets Big Japanese Champ Wrestler Here

There is a chance that the champion wrestler of Japan, Hittachiya, by name, will come to Honolulu and give exhibitions of his skill and strength here. He is now in the United States, where he has been traveling all over giving exhibitions, but will soon start on the journey to the land of the Mikado, and it is thought a good idea to have him stop off here and show the good people what a real Japanese wrestler is and what he can do. It seems that the man is a husky athlete, for he tips the scales at a little over 300 pounds with his birthday clothes on.

Of course this is nothing unusual for Japanese wrestlers are all big. In Japan a man cannot be a strong man at all unless he has several hundred superfluous pounds to back him up. This giant, though, is said to be the biggest of the big, and has all kinds of muscle along with his size. He wants a guarantee of \$1000 if he stops here, and prominent Japanese of the city are boosting the proposition, and, if possible, will have the man with the long name and the extra pounds stop here.

TWO CHINESE BALL TEAMS TO GLASH

A game of baseball will be played Monday, Feb. 2, between the Chinese Athletic team and the Chinese Athletic Club at Aala Park. The following are the line-ups:

Chinese Alliance—E. S. Kong, c; Jan, Lo, p; Tai Chan, 1b; Hang Chung, 2b; Ed. Ayan, captain, 3b; Sing Chong, ss; K. Y. Ching, lf; A. K. P. Yap, cf; Mon Yin, rf; and substitutes.

C. A. C.—Chi Bai (captain), c; Kian Apau, p; En Sang, 1b; Clement Akima, 2b; Jan, Awan, 3b; En Choe, ss; En Sue Pung, lf; Willie Ayan, cf; C. Y. Mark, rf; and substitutes.

KENNEL CLUB MEETS

A meeting of the Hawaiian Kennel Club will be held tonight at 7:30 at the Young Hotel to elect new officers and decide on certain things relative to the coming dog show. There are a good many fine animals in this city, but the purpose of the club is to get together as well-set-up, blooded, and pedigreed collection of canines as can be found anywhere.

A movement is on foot to arrange for an inter-island baseball tournament next season. Kauai, Hawaii, Maui, and Oahu will be represented in the matter comes to a head. The proposition should be a good one, for there is splendid talent in all the islands, and there is no reason why it should not be a financial success.

Walter Macfarlane has ordered a new gasoline launch 25 feet long, to be fitted with a 15 horse-power engine, which he will use for pleasure around the harbor. C. D. Walker will be the builder.

Princess, a crack polo pony, came down on the last trip of the W. G. Hall from Kauai. She was bred by Charlie Rice, and is said to not only be fast, but also to know the game thoroughly and trained to follow the ball all the time.

Five members of last year's Andover baseball team will go to Yale next fall.

Lump Sum Of Money Is Given To Yacht Hawaii

Three hundred dollars in one lump and from a man who does not personally care for the sport certainly speaks well for the broad-mindedness of the giver. H. P. Baldwin sent down his personal check the other day for that amount, to be turned over for the benefit of the yacht, and personally Mr. Baldwin says that he does not care two yells for the sport, nor has any particular interest in the trans-Pacific race, but he says that he realizes other people may have different views than his, and he is willing to help as much as possible.

Such a donation as that of Mr. Baldwin coming, as it does, from one who does not care for the sport, shows the spirit of a man who is generous and broad-minded all the time.

QUEER START OF ONE BASEBALL PLAYER

Ralph Glaze, the speedy pitcher of the Boston American League Club, is a graduate of Dartmouth College.

When Ralph was a member of the varsity team he was the whole works. It was mainly due to the high-class ball the good-looking Boston boy pitched that enabled his team to put it all over some of the best college baseball teams in America. He has a mother now at the same college, who is making a fine record both in baseball and football. Always from a boy up Glaze has been infatuated with the great national game, and when he went to college he carried with him a reputation as a pitcher, but he was so young, and moreover looked so youthful, that he had a hard time in getting a chance the first year he was at college, but one day when the regular slab men were laid up with injuries, or from some other cause, the coach called young Glaze into the box during a game they were playing with Bowdoin. Glaze was the coach's last hope, and he felt that it was a desperate undertaking at the best, but he had to risk it; judge then of his astonishment when from the bench he saw Ralph strike out the first nine men all in a row, and in the remainder of the contest not a man got any further than second base. It was known throughout the college that night that a phenom in the person of Glaze was hanging up his hat in old Dartmouth, and when the next day he went in and defeated Harvard in a walk, Ralph could have had anything he wanted. The Saturday following his two victories his father came up to see him, and while walking around the college yard the old gentleman, who has a stern notion when it comes to education, said to his son:

"And now, Ralph, how are you getting along at college?"

"Oh, fine, father," shouted Ralph, with his face all lighted up with animation. "why, in two games this week, I have struck out twenty men."

Rome, Jan. 29.—Pope Pius today received Archbishop Riordan of San Francisco in private audience and after expressing the hope that both the United States and Japan might justify the hopes of the older nations of the world for great and rapid progress toward a higher degree of civilization asked the American Archbishop to exert all his influence in behalf of peace between the two nations.

"I recommend you to work for pacification of the warlike spirits in your diocese," said His Holiness, "and I urge upon you to do your utmost to persuade all American prelates to do likewise, that your people may disregard the wicked exaggerations of the jingo press."

"The clergy should enforce fraternal peace upon all Catholics, for if peace ceases to exist our mission may be considered to have failed."

His Holiness authorized Archbishop Riordan to convey the Apostolic benediction to the faithful of his diocese, and expressed the hope that the controversy over the nomination of a coadjutor-archbishop in San Francisco might soon be settled satisfactorily.

Mark Twain tries to cheer depositors caught in crash with him and says it is cheaper to keep a harem than to maintain a receiver.

JOSH TUCKER TAKES TIM LYONS PLACE

Pratt Makes Change For
Good Of The Land
Department

On the first of February Tim Lyons will cease to be Chief Clerk of the Land Commissioner's office and will be succeeded by Joshua D. Tucker, who of recent years has been in charge of the Masonic Temple. Lyons' resignation is dated December 14, but he has been retaining the position until a man could be found who would satisfy the requirements of the office.

Speaking of the change, Commissioner Pratt said this morning that Lyons is a first class accountant, and a man who is absolutely honest. His accounts have always balanced to a cent.

But he is only an accountant, and with the new land policy inaugurated by Governor Frear, a man is required for the position of special requirements, one who is thoroughly familiar with land matters and business conditions throughout the Territory and who can take the place of the Commissioner when the latter is absent from the office, and also attend to much of the detail work which now confines the Commissioner to his office. In Tucker, Pratt believes that he has found the man he was looking for.

Pratt expects to accompany the Governor on the tour of the islands which Frear is planning to make with a view to looking into and familiarizing himself with land matters, and he wants a man in the office who can represent him and attend to the routine work.

"At present," said Mr. Pratt this morning, "I have to spend too much time in this office and look after details too much. I ought to be getting out around the country, acquiring a more thorough acquaintance with the land which is subject to sale or lease. We are not disposing of public land by job or by gad any more; we are selling or leasing it according to its actual valuation, and I want to look over it all, so as to know just what we are doing. Hawaii is the island caped."

where we will have most to do in the future, and I ought to be able to spend more time in the office up there and not have to sit here all the time to attend to details which might just as well be looked after by my assistant.

"Mr. Lyons is a good man in his line, but he is only an accountant. He is a mighty good one, and I hope to see him placed where he will be as well off as he is here."
